## STANDARD FEATURES

**DOORS:** Framed out of 3 x 2 x .090 Wall Rectangular Tube. Three (3) removable, greaseable, offset truck hinges with nylon inserts fasten the door. Single dual cam lock with lockable hasp locks the rear door. The side door option comes with a bar lock with a lockable hasp.

**LIGHTING:** Four (4) LED 2" grommet flush mount lights on each side. Seven (7) LED 2" grommet flush mount lights in the rear. All lights are individually grounded and are common wired with a 18 GA single strand wire that is protected by loom and clipped into place.

**SEALANT/CAULKING:** All seams and the floor are sealed with a polyurethane sealant (Silka 221 series sealant).

**PRIMER/PAINT:** Under chassis is primered with a black high solids alkyd primer. Top coat is a modified polyurethane catalyzed enamel (2 coats).

## OPTIONAL EQUIPMENT

- ◆ Tarp Housing
- ◆ Behind Cab Cross Box
- ◆ Large 48" Side Access Hitch
