

PORTABLE TOILET TRAILERS

GENERAL DESCRIPTION

The *Work Mate Portable Toilet Trailer* is perfect for the construction and agriculture industries. Whether constructing buildings or roads, workers can easily transport this portable toilet trailer to its needed location. It also meets the needs of the agricultural industry because it can easily be moved to the daily work area.

In addition to the ease of transportation, the *Work Mate Portable Toilet Trailer* comes standard with a complete wash station, fresh drinking water, and a garbage receptacle. Install your own toilet house and you have everything you need to meet OSHA field and sanitation requirements in one convenient, portable unit.

Other options available on the portable toilet trailer include a dump valve, trailer lights, a shower head and eye wash station and increased gallon capacity for the freshwater tanks.
